

G4 TEAM CREATION BETA RULES

Each coach building a new team creates exactly 51 new players from a set of candidates. No team may be created with less than or more than 51 players. A coach uses Selection Points (SPs) to select 51 of the candidates offered and has **825** SPs to do so. The coach may use less than the total SPs when selecting his roster but may not use more. SPs may not be traded between coaches, and any unspent are lost.

A “candidate” is not a fully-fledged player. He is a template for a player at a given assignment. A candidate has a level band (which gives a range of possible levels), an age band (which gives a range of possible ages of experience), a range of QST options (from which the coach may freely select), and a fixed cost in SPs.

There will be several candidates offered at each assignment. The coach will determine at the time of selection which of the QST options he wishes to apply to that candidate player, but the precise age and level will only be determined towards the end of the team creation process, and will be random but within the indicated bands.

A coach may not select any candidate more than once. Also, each time a candidate is selected, SPs from the coach's total are deducted from his or her remaining total.

No choices are final until the coach has exactly 51 candidates and chooses to move to Second Down. Under Second Down the coach will find a link marked “Create Players”. Clicking this link creates the players from the candidates chosen, so long as the selections are legal (if they aren't the coach will be told the reasons and asked to go back and address them). when the coach has finally decided which 51 candidates he or she wants, it is time to move to Second Down and press the button which creates all the players.

There is no initial draft as such, but you will simulate a draft by choosing exactly six rookies for your roster. Rosters without six rookies are illegal. You may choose up to three of your rookies from the MEDIUM level range (these represent earlier round draft picks), all others will come from the LOW band of levels.

Ages and Levels

The age bands and their potential values are:

Band	Minimum age	Maximum age
ROOKIE	0	0
PROSPECT	1	2
EXPERIENCED	3	5
VETERAN	6	8

EACH TEAM MUST RECRUIT 6 ROOKIES. Other limitations are indicated in the table below.

Age Band	Minimum Allowed	Maximum Allowed
ROOKIE	6	6
PROSPECT	6	12
EXPERIENCED	8	20
VETERAN	8	20

The level bands and their potential levels are:

Band	Minimum Level	Maximum Level
LOW	4	6
MEDIUM	7	9
HIGH	10	12

Q S and T values

The actual cost of the player selected in Selection Points is based on his age band, his level band and his QST band. The specific SP costs are shown on the web page.

Certain QST combinations cost more than others, and these are categorised in bands depending on assignment.

Maximum and Minimums

When selecting new players, there are minimums and maximums per assignment. Coaches must select *at least* the minimum number shown in the table below of each assignment.

Assignment

Assignment	Minimum Allowed	Maximum Allowed
QB	2	5
RB	2	7
WR	2	6
TE	2	6
OC	1	6
OG	3	7
OT	3	7
DE	3	7
DT	2	7
ILB	2	7
OLB	2	7
SF	2	7
CB	2	7
K	1	1
P	1	1

The SP Costs are charted below.

POS	AGE	LEVEL	POSS QST	SP COST
QB-1	VETERAN	HIGH	20/60/20	29
